

Take Control

Do you want to take control of your life?

Do you have enough free time to spend with your family and friends doing the things you enjoy?

Is your current occupation going to provide you with the lifetime income you need, or do you want something better?

Are you satisfied with your house, car, holidays, clothes, or would you like to earn more and improve them?

If you became ill or redundant would you be able to maintain your standard of living?

Do you have an adequate pension?

Do you want a different challenge and want to take back control in your life?

Would you rather work from home making an income around your children and family? No commuting, no childminding and you decide the hours you work?

Does it make good sense to set aside some time each week to build a business of your own, now, and be able to retire within 3-5 years regardless of age?

Boost your income by starting your own business part time. No prior experience is required; just a positive attitude, a willingness to work hard and a desire to change your life.

Are You Trapped?

If we take a hundred people who graduate from college or university and we follow them through their career - at the end of their career here is what happens to them:

- 29% are Dead
- 63% depend on family or state
- 4% are well off (Can meet their needs and don't need charity)
- 1% are wealthy (Living the lifestyle of their dreams)

This is the system we are living in right now. You go to school and get an education, then you get a job and work and then you retire and live your golden years dependent on other people.

When you work for someone else as an employee your employer has leverage on your time. They have to buy you at (eg) £18000/pa and sell you at £24000/pa. The company or whatever the entity/business is has to make money on you. You live in what is known as the – TIME 4 MONEY TRAP. The more time you give your employer the more money you make. The less time you give your employer the less money you make. You work for 8 hrs you get paid for 8 hrs. You work 4 hrs you get paid for 4hrs. If you are not there working you get nothing, it is LINEAR income.

You are in a line of work without security! And probably a line of work you don't enjoy.

Even if you are a highly paid consultant you are still considered to be in the time 4 money trap.

So What's the Answer?

Network Marketing is creating more millionaires than any other industry. It is a way of moving consumer goods via a 'network' of distributors. When you build your own team, the distributors you recruit will have the same opportunity as you to make the same or even more money than you. This is a system where you can start at the bottom and go to the top. Enhanced earnings come from encouraging your team members to achieve better levels of performance. Therefore you are all in a WIN-WIN situation.

The Power of Leverage

What is the maximum amount of time you could work in a week? If you worked 6 days a week for 24 hours a day you would achieve 144hrs of productive work.

Let's look at it another way. If you had 50 distributors in your business all working part time for 7 hours a week you would have 350hrs of productivity going into your business every week. That is 206hrs more than you could achieve working 6 days a week 24hrs a day!!! Does that seem fair? It is absolutely fair. Because this is what the wealthy know and implement!!

John Paul Getty the billionaire is quoted as saying, "I would rather have 1% of the efforts of 100 people rather than 100% of my own effort"

And this is the magic of Network Marketing—leveraging in the efforts of lots of people to create residual income.

Unlimited Income

If you had a Million Pounds in the bank right now paying 5% interest that million pounds would pay you £50,000 a year. How big is your pension fund? If you make £50,000 in a job you would have to have a Million pounds in your pension to retire on the same income at 65. Most don't even have much beyond £5000 by 65 let alone a million pounds! Alternatively if it took you 2 years to build a Network Marketing business that pays you £5000 a month in PASSIVE RESIDUAL INCOME you could proudly say, "I have a Million Pound Business" and you wouldn't need to lift a finger to make that income flow in!!

Positive Monthly Cash flow every-month for you and your family to enjoy!

With consistent effort network marketing can give the average person wealth in 2 to 4 years. If your business works 7 to 10 hours a week you can double or even triple your income inside two years. You can produce residual income where you get paid forever for work you did in the past—unlimited income potential.

Yes **UNLIMITED INCOME!** Complete financial independence. So for :

1. Minimal financial risk and tax advantages.
2. Ability to choose who you work with and where you work from
3. Personal Development
4. Money
